
Resource PDF\'s for CV cameras and lenses

Posted by jan - 2008/05/09 10:47

Hi I think it might be a great idea to set up a folder here at this website containing PDF\'s of the various "owner's manuals" for the CV cameras and lenses.

I\'ve an R3a and R4a and would like to access a manual to review the camera's functions. After a couple of preliminary searches I\'ve come up with nothing. Neither on the web in general nor at CV's home page.

Product support and documentation is something most users or potential purchasers access.

Thanks Jan

I agree but there may be copyright issues involved?
