This thread discusses the Content article: Q&A with Chii Fei

Chii Fei has sold me one of the last (I believe) 125/2,5 APO-Lanthars with EOS mount. The customer service and communication from the first contact to getting the lens custom-cleared in Vilnius, Lithuania was truly great. Thanks, and keep good work!

That's suppost to be a great lens! I see that it cost up to USD1500 in some online stores as it's not a comon item. Read that only 100 units were made? Do share some photos with us.

Cheers,
